Theoretic Arithmetic of the Pythagoreans By Thomas Taylor (1816) p. xxv

WILLIAM DAY and WILLIAM GEORGE MEREDITH, the relatives of his much esteemed and honoured friends, WILLIAM and GEORGE MEREDITH, Esqs, the first of these youths being the nephew of both, and the second, the son of the latter of his friends. From the fair hopes which their great proficiency in learning have hitherto raised in all that know them, there is every reason to expect that they will eventually be no less an ornament to their country than an honour to the family to which they belong. And he requests they will permit him thus to dedicate this work to them, both as a testimony of gratitude to their above mentioned relations, and an indication of his great personal regard for them, and his sanguine expectations of their future renown.
